

3.5kW FM power splitter RAPDFM 1 to 2

type : RAPDFM 2.3.3.301. 3kW
input : DIN 7/16
output : 2x DIN 7/16
reflection s11 : <-30dB
maximal power : 3.5 kW
frequency range : 87.5-108MHZ
color : white or gray
weight : 5 kg
length : 1.6m
pressurizable

RAYTRA FM Power Divider is designed for professional FM broadcast systems operating 87.5-108MHZ band. This type provides equal power distribution from a single transmitter to two antenna branches. The robust divider desing is engineered for long-term continuous operation.
